

Creativity and Project Management in Commercial & Residential Design

SERVICES

COMMERCIAL DESIGN

Store Planning: We design and manufacture units/pieces for commercial stores which include fixtures to display specialty merchandising components. We can also design cost efficient modules and functional units.

RESIDENTIAL DESIGN

We design and manufacture units/pieces for residential areas including wall units, entertainment units, vanities and closets.

MANUFACTURING OF FURNITURE

We produce every piece of furniture following the principles of an efficient and cost-effective design. We offer our clients a wide variety of unique and innovative materials for long lasting furniture.

INSTALLATIONS

We have all the logistics necessary to accomplish the installation of each designed element in agreed time.
